

Stain Protector™	Anti-Graffiti Coating
<b>Protection</b>	
<ul style="list-style-type: none"> <li>Limits penetration of graffiti into pores and makes cleaning easier.</li> </ul>	<ul style="list-style-type: none"> <li>Coatings form a film barrier which provides excellent protection against all types of graffiti.</li> <li>Graffiti removers are still required to clean graffiti, which degrade the coating.</li> </ul>
<b>Appearance</b>	
<ul style="list-style-type: none"> <li>Keeps look of surface regardless of which graffiti remover is used – particularly important for natural stone.</li> </ul>	<ul style="list-style-type: none"> <li>Creates a gloss or matte film, which can whiten, yellow and wear over time. <u>Also</u> graffiti removers will degrade the film, making it look unsightly.</li> </ul>
<b>Longevity</b>	
<ul style="list-style-type: none"> <li>Up to 15 years: High UV stability and chemical resistance.</li> <li>Not affected by pressure washing.</li> </ul>	<ul style="list-style-type: none"> <li>Sacrificial: Re-apply every time wall is pressure washed.</li> <li>Semi-Permanent: 1-4 years depending on UV and cleaning regime. Graffiti removers can damage, then wall must be stripped to re-apply</li> </ul>
<b>Breathability and related issues</b>	
<ul style="list-style-type: none"> <li>Highly breathable – water in wall is able to evaporate out.</li> <li>Keeps pores dry which retards mould growth.</li> </ul>	<ul style="list-style-type: none"> <li>Block pores, traps moisture inside wall.</li> <li>Efflorescence, mould and moisture can collect under the coating.</li> </ul>
<b>Re-application</b>	
<ul style="list-style-type: none"> <li>Clean wall and re-apply.</li> </ul>	<ul style="list-style-type: none"> <li>Strip old coating off before re-application</li> </ul>
<b>Cost</b>	
<ul style="list-style-type: none"> <li>Higher initial cost of application</li> <li>Longevity = low long-term cost</li> </ul>	<ul style="list-style-type: none"> <li>Lower initial cost</li> <li>High re-application costs</li> </ul>
