

SUPABORD - RENOVATOR GRADE TEMPORARY FLOOR PROTECTION SPECIFICATION SHEET

DESCRIPTION

SupaBord Renovator Grade is our dependable medium-duty, temporary floor protection solution, catering to the needs of shorter-term commercial and residential construction projects.

Experience the forefront of floor protection technology with SupaBord Renovator Grade. This innovative product strikes a perfect balance, offering a lightweight design while delivering optimal vapour permeability, durability, and strength. Tailored to meet the challenges of residential renovations, SupaBord Renovator Grade exhibits low impact resistance and proves resilient against light wheeled traffic. Covering an area of 26.5 sqm per roll, this product is highly versatile, being easily scored and folded for protecting surfaces, making it an ideal choice for safeguarding benchtops and stairs.

SupaBord Renovator Grade prevents the unwanted costs of damage and rework, all while enjoying significant savings on both material and labor costs. SupaBord Renovator Grade stands as the preferred brand among renovators worldwide.

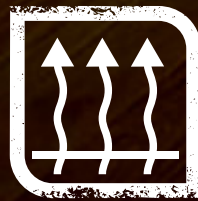

FEATURES

SPILL RESIST

QUICK FIT

BREATHABLE

MEDIUM DUTY

CUT & FOLD

INSTALLATION INSTRUCTIONS

1. Ensure the subfloor (base floor) is clean and dry
2. Remove paper wrap from the SupaBord roll
3. Roll out SupaBord over the flooring area or surface, logo side facing up
4. Cut SupaBord to length with a utility knife, ensuring the seams are neat and fit well together
5. Tape the SupaBord butt joints, long joints and perimeter with SupaBord Joint Tape. *Do not apply SupaBord Joint Tape to floor surfaces as it may affect some finishes*
6. Apply SupaBord Edge Tape to the outside perimeter of the flooring area

USES

SupaBord Contractor Grade provides ideal protection for granite, marble, stone, coloured concrete, tile, wood, carpet and linoleum. It provides excellent protection for a variety of surfaces including walls, bench tops and stairs.

HANDLING AND STORAGE

No special handling requirements. Keep away from flammable and combustible material. Paper products will not release hazardous chemicals under normal conditions of use.

SAFETY

Upon review of relevant OSHA regulations and the characteristics of paperboard, a MSDS is not required because paperboard falls within the exemptions for a 'manufactured article' and 'wood products'.
